

## Round Birdhouse

Another unusual birdhouse I made during the summer of 2013. I added a little overhang on the top roof and added a post mount at the bottom but you don't have to. It stands 10-1/4 high and 7 round. Why round? I opened up an old birdhouse to clean it and inside a square birdhouse was a round nest in one corner so I thought let's try a round house. This is another good project for the young builder to make or a Cub Scout/Girl Scout troop to make.
