

Lives of the Signers of the Declaration of Independence

Here is another book that tells the stories of the brave men who made the decision to sign the Declaration of Independence. It was published in 1842.

..... Other books are: - The Signers of the Declaration of Independence by Nathaniel Dwight - The Americans Own Book A short summary from the books Preface: The author has had it in contemplation for several years, to present to the public a work of the following kind; but, until recently, he has not had leisure to complete his design. He was incited to the undertaking by a belief that he might render an important service to his countrymen, especially to the rising generation, by giving them, in a volume of convenient size, some account of the distinguished band of patriots, who composed the congress of 1776; and to whose energy and wisdom the colonies, at that time, owed the declaration of their independent political existence. No nation can dwell with more just satisfaction upon its annals, than the American people. The emigrants, who settled the country, were illustrious men; distinguished for their piety, wisdom, energy, and fortitude. Not less illustrious were their descendants, who served as the guides and counsellors of the colonies, or who fought their battles during the revolutionary struggle. No one who admits the intervention of a special providence in the affairs of nations, can hesitate to believe, that the statesmen and heroes of the revolution were raised up by the God of heaven, for the important and definite purpose of achieving the independence of America of rescuing a people, whose ancestors had been eminently devoted to the duties of piety, from the thralldom under which they had groaned for years and of presenting to the monarchical governments in the Eastern hemisphere, the example of a government, founded upon principles of civil and

religious liberty. For the accomplishment of such a purpose, the statesmen and heroes of the revolution were eminently fitted. They were endowed with minds of distinguished power, and exhibited an example of political sagacity, and of high military prowess, which commanded the admiration of statesmen and heroes, throughout the world. Their patriotism was of a pure and exalted character; their zeal was commensurate with the noble objects which they had in view; and amid the toils, and privations, and sufferings, which they were called to endure, they exhibited a patience and fortitude, rarely equalled in the history of the world.
