

Starting Out with C++ Early Objects plus MyProgrammingLab with Pearson eText -- Access Card Package (8th Edition)

NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab & Mastering products, you may also need a Course ID, which your instructor will provide. Used books, rentals, and purchases made outside of Pearson. If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab & Mastering are not accessible, step-by-step presentation helps beginners understand the important details necessary to become skilled programmers at an introductory level. Gaddis motivates the study of both programming skills and the C++ programming language by presenting all the details needed to understand the how and the why but never losing sight of the fact that most beginners struggle with this material. His approach is both gradual and highly accessible, ensuring that readers understand the logic behind developing high-quality programs. In *Starting Out with C++: Early Objects*, Gaddis covers objects and classes early after functions and before arrays and pointers. As with all Gaddis texts, clear and easy-to-read code listings, concise and practical real-world examples, and an abundance of exercises appear in every chapter. This text is intended for either a one-semester accelerated introductory course or a traditional two-semester sequence covering C++ programming. MyProgrammingLab for *Starting Out with C++* is a total learning package. MyProgrammingLab is an online homework, tutorial, and assessment program that truly engages students in learning. It helps students better prepare for class, quizzes, and exams resulting in better performance in the course and provides educators a dynamic set of tools for gauging individual and class progress.

And, MyProgrammingLab comes from Pearson, your partner in providing the best digital learning experiences. Note: MyProgrammingLab is not a self-paced technology and should only be purchased when required by an instructor. 0133441849/9780133441840 Starting Out with C++ Early Objects plus MyProgrammingLab with Pearson eText -- Access Card Package, 8/e Package consists of 0133452255/ 9780133452259 MyProgrammingLab with Pearson eText -- Access Code Card -- for Starting Out with C++: Early Objects, 8/e 013336092X/9780133360929 Starting Out with C++: Early Objects, 8/e
