

## The Writers Way

This dynamic, process-centered paperback combines a rhetoric with readings. Based on a whole language approach, *The Writers Way* recognizes that people learn best by reflecting on what they do--and that writers learn best when inspired by compelling reasons to write, motivated by strong examples, and reinforced by immediate personal rewards. Offering frank advice in a supportive, encouraging tone, this text leads students step by step through the writing process, from pre-writing to polishing the final draft. Part I, *Introduction to Writing*, provides a broad introduction to the natural-language attitude toward learning to write, establishing the hands-on approach of the book. Parts II and III offer step-by-step walkthroughs of the writing process, beginning with generating ideas, drafting, and organizing (Part II: *Planning and Drafting*), followed by *Revising and Editing*, in Part III, which includes coverage of peer critiquing. Part IV, *Modes of Writing*, highlights the decisions about audience, purpose, structure, and language that writers face when writing in personal, informative, and persuasive modes. Part V, *Academic Writing*, discusses writing for college courses and includes chapters on writing about literature, writing in the sciences, collaborative writing, and research. Part VI, *A Treasury of Essays*, is a collection of 24 model student essays collected by the author from his classrooms over the years.
